Great, but make it tentative at this point, I don't have confirmation from Deanna yet. I'll let you know when I do.

Hey Karen,

Thanks for telling me about tomorrow that is helpful. I looked at the agenda but it wasn't v. specific. I knew he would present but didn't know what day. I'll keep reading today and go over there tomorrow.

I'll talk to Ken when he calls about WQ and Surface Water. It would be fantastic to discuss both. We'll be discussing technical/science/analysis on Feb 6.

Thanks. In case you hadn't heard, I understand Walter Bourez is presenting at the ISB meeting tomorrow, sometime in the morning.

Surprisingly, we have no conflicts on February 6 or 7, and we'd love to join you. Given the way we've distributed the review, there would be about 5 people from our office that may attend. Is that too many? If so, we can limited the number of staff attending.

I've asked Ken Emanuel (one of our staff working on BDCP) to set up a Chapter 5 meeting with you. Did you also want to discuss water quality? If so, mention that to him when he contacts you.

Karen

Hey Karen,

I'm not in the meeting this AM b/c of an EPQ meeting I have at 10:30. I have so much reading to do, so I'm not sure if I'll head over there or not. If I go, I'll get materials for you.

Also, just heard from Deanna and we're looking at Feb 6 at 10 AM. Interested in joining? Here at NMFS. I'll let you know when we confirm time and date. Could be a little later in the morning or move to Feb. 7 morning.

Are you at the meeting, and are there any handouts of value?
